

Jaeger Maritime Solutions GmbH, part of the JÄGER Group, develops sustainable and innovative technologies for the maritime industry. Our solutions focus on offshore wind energy - underwater noise mitigation, scour protection, and corrosion protection. With the expertise of the JÄGER Group – over 1,200 employees and decades of material and process know-how – we deliver reliable, eco-friendly systems tailored to harsh environments. From concept to deployment, we support clients with engineering, testing, and project implementation.
